Overview

Which BMW iX3 uses a 46120 battery?

The first vehicle to use this is the 26MY iX3 and this has given us an insight into the cell and pack: BMW iX3 Neue Klasse Battery. BMW iX3 Neue Klasse Battery This pack uses the taller 46120 cell to create a ~111.6 kWh pack.

What is the difference between 4640 and 26110 cells?

Taking a 4640 cell and a 26110 cell with identical nominal capacity of 10.0 Ah, we have $D / H = 1.15$ for the 4640 cell and 0.24 for the 26110 cell. It can be seen from Fig. 6 (a), during 0.5 and 1.0 C charge, the jellyroll temperature of 4640 and 26110 cells shows the same evolution.
