For Variable Pools: B33V is suitable for pools up to 10,000 gallons (maximum size of 20' round or 12'x24' rectangular); B58V is suitable for pools up to 18,000 gallons (maximum size of 26' round or 14'x42' rectangular); not recommended for inflatable pools due to low water pressure. Enjoy peace of.

Transform your pool experience with the TURBRO Beluga series swimming pool heat pump! Designed for effortless enjoyment, this high-performance heat pump delivers heating and cooling, ensuring a comfortable water temperature all year long. DC inverter technology saves up to 40% on energy costs.

Specification: Voltage: 220-240V / 60 Hz. Heating Capacity: 58,000BTU.
Dimensions: 36" (L) x 14" (W) x 26" (H). Weight: 127lb How do you want your item?

1 Year Warranty. If you have any questions, please message us and give us a chance to assist you. All messages will be answered within 1.

Control your heating in silence with this full inverter technology heat pump: Thanks

to its exclusive intelligent control system, the TropiCal heat pump regulates its output according to the water temperature, but also according to the ambient temperature, to always ensure the right swimming.

Includes an outdoor heat pump condenser and 1 to 5 indoor air handlers. It's inexpensive to own and operate, easier to install and whisper quiet. Homeowners and contractors love Blueridge ductless mini-splits. If you own a home, you will want one. Blueridge mini-splits are a high quality, energy.

Equipped with full inverter technology, the TropiCal adjusts its performance to maintain the perfect pool temperature while minimizing energy use and noise. Whether it's rapid heating, energy efficiency, or a balanced solution you're after, the TropiCal delivers with three smart operating modes.
