## Overview

---

What is a Dutch solar roof tile?

The Dutch solar roof tile marks wienerberger's first step towards a comprehensive portfolio of energy systems and developing the product required innovative approaches: "clay products are part and parcel of wienerberger's day to day business and our expertise in the field is unbeatable.

Who makes sunstyle® roof tiles?

SunStyle International, a subsidiary of the Akuo Group, is a French co-designer and manufacturer of solar photovoltaic roof tiles. In addition to their roofing function, the SunStyle® tiles combine power generation with a contemporary style to create buildings that meet environmental challenges.

Where is solar roof tile made?

The solar roof tile is currently manufactured and sold in the Netherlands, where it has passed the necessary technical tests and quality approvals. A roll-out to other European countries is planned. "In the Netherlands, the solar roof tile has generated significant interest.

What is a solar tile roof?

In wienerberger's solution the solar cells are combined with a traditional ceramic roof tile and actually built into the roof tile. This preserves the aesthetic appeal of the roof. "The new solar tile means we can combine the best of both worlds: a typical clay tile roof and efficient energy generation using solar power.
