

Are there any tariffs on Uruguayan energy storage exports

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

Energy in Uruguay describes and production, consumption and import in . As part of climate mitigation measures and an energy transformation, Uruguay has converted over 98% of its electrical grid to sustainable energy sources (primarily solar, wind, and hydro). are primarily imported into Uruguay for transportation, industrial uses and applicati.

Uruguayan companies exporting to the US must now pay the 10% tariff, raising the cost of their goods for US consumers and businesses. The overall goal of the US policy is to incentivize domestic production.

Uruguayan companies exporting to the US must now pay the 10% tariff, raising the cost of their goods for US consumers and businesses. The overall goal of the US policy is to incentivize domestic production.
