Our product offerings include hybrid inverters, battery inverters, battery solutions, solar charge controllers, bypass cabinets, and rectifiers, providing comprehensive solutions for diverse energy needs. All-in-one hybrid inverter has a power range from 5kW to 150kW. This integrated solar hybrid.

There is a renewable energy drive going on in Russia right now and solar energy is leading the way for renewable sources. At the end of 2019, the country reached a PV capacity installation of 1.7 GW. This came as a result of the Russian government's grid-connected projects that launched in 2014.

Founded in 2017, Shenzhen ATESS Power Technology Co.,Ltd is a global supplier of solar energy storage and EV charging solutions, who is dedicated to developing and delivering affordable clean energy to every corner of the world, offering our customers worldwide the possibility for energy.

30-50kW three-phase integrated hybrid inverter, specially designed for commercial scenarios such as shops, small factories, and schools. 30kw inverter, 40kw inverter and 50kw inverter integrate power generation, energy storage, power control, and backup power functions, meeting both grid-connected.

100kW hybrid inverters are available in battery, load, grid, and solar connection, which support small and medium commercial and industrial applications. Supporting up to 600 kW of system capacity. ATESS 100kW all-in-one energy

storage system with compact design, integrates PV inverter, charge.
