

Australia Energy Storage Equipment Procurement

Overview

Australia has taken a decisive step in reshaping its electricity grid, awarding more than 15 GWh of battery energy storage projects in what marks the country's largest procurement round to date.

Australia has taken a decisive step in reshaping its electricity grid, awarding more than 15 GWh of battery energy storage projects in what marks the country's largest procurement round to date.

Australia has taken a decisive step in reshaping its electricity grid, awarding more than 15 GWh of battery energy storage projects in what marks the country's largest procurement round to date. The outcome of the third Capacity Investment Scheme (CIS) tender highlights both the scale of ambition.

CIS Tender 3 targeted 4 GW/16 GWh of dispatchable capacity in the National Electricity Market (NEM), but saw 124 bids worth around 34 GW/135 GWh bid in. Australia has concluded its largest dispatchable capacity procurement under its Capacity Investment Scheme (CIS) to date. CIS Tender 3 aimed to.

The Australian government has officially opened the Capacity Investment Scheme (CIS) Tender 8, targeting 16GWh of energy storage capacity across the National Electricity Market (NEM). The tender represents the largest single energy storage procurement under the CIS programme, reflecting the.

The winners of the Capacity Investment Scheme (CIS) third tender were announced on 17th September 2025. This round secured over 4 GW / 15 GWh of battery energy storage across 16 projects - enough energy to supply 3.5 million households in the NEM for four hours. Government-backed support for energy.

The tender will support battery projects capable of powering the peak load of 3.7 million homes for four hours. Registrations close on January 23, 2026, and bids will be accepted until February 6, 2026. Australia has launched Tender 8 of the Capacity Investment Scheme (CIS) for the National.

The Australian government has officially opened the Capacity Investment Scheme (CIS) Tender 8, targeting 16GWh of energy storage capacity across the National Electricity Market (NEM). The tender represents the largest single energy storage

procurement under the CIS programme, reflecting the. What is Australia's largest dispatchable capacity procurement?

Australia has concluded its largest dispatchable capacity procurement under its Capacity Investment Scheme (CIS) to date. CIS Tender 3 aimed to deliver 4 GW of four-hour equivalent dispatchable capacity, or 16 GWh of projects, in the National Electricity Market (NEM).

What is the largest battery energy storage tender?

The third CIS tender awarded 4.13 GW of contracts to battery energy storage projects across the mainland NEM. This marks the largest battery tender to date. The tender locked in 15.37 GWh of energy storage capacity. This tops the previous record of 13.8 GWh set by the LTESA long-duration energy storage tenders.

Who are Australia's leading energy storage companies?

Global players such as TotalEnergies, Lightsource bp, and AMPYR Australia also secured awards, underscoring the international confidence in Australia's energy storage market. Geographically, New South Wales and Victoria each host five projects, Queensland four, and South Australia two.

What is Australia's biggest energy tender?

Australia's biggest tender delivers 15 GWh of battery energy storage systems, boosting grid reliability and advancing the 2030 renewable target.

Australia Energy Storage Equipment Procurement

Australia Opens Capacity Investment Scheme Tender 8, Seeking ...

The tender represents the largest single energy storage procurement under the CIS programme, reflecting the government's accelerated deployment timeline for grid-scale ...

Sixteen battery projects secure CIS contracts in Australia's ...

The winners of the Capacity Investment Scheme (CIS) third tender were announced on 17th September 2025. This round secured over 4 GW / 15 GWh of battery energy storage across ...

[Australia Launches CIS Tenders Targeting Energy Storage](#)

Australia opens CIS tenders for energy storage and renewables, encouraging investment to meet a clean energy target by 2030.

Australia Launches 16 GWh Dispatchable Energy Storage Tender

Australia has launched Tender 8 of the Capacity Investment Scheme (CIS) for the National Electricity Market (NEM), seeking to add 16 gigawatt-hours (GWh) of clean, ...
