

Black Mountain Base Station Power Supply Modification

Overview

UniSource's 2023 Integrated Resource Plan (IRP) calls for additional renewable, storage and natural gas generating resources by 2038. By expanding local generating capacity, UniSource reduces the need to buy power from the market.

UniSource's 2023 Integrated Resource Plan (IRP) calls for additional renewable, storage and natural gas generating resources by 2038. By expanding local generating capacity, UniSource reduces the need to buy power from the market.

UNS Electric, Inc. ("UNSE"), a subsidiary of UniSource Energy Services, is an electric utility serving approximately more than 80,000 customers, with a service territory of more than 8,000 square miles in Mohave County, Arizona. UNSE's 2023 Integrated Resource Plan (IRP)¹ describes how the company.

UniSource is working to establish greater energy independence and security for customers to reduce our reliance on the regional energy market, where resources are increasingly scarce. New generating resources will support projected growth and economic development in Kingman, Lake Havasu and.

If you are a member of the media, please email ngarcia@azcc.gov or call (602) 542-0728. Phoenix, Ariz. - The Arizona Corporation Commission voted 4 - 1, with Commissioner Anna Tovar dissenting, to reverse the Arizona Power Plant and Transmission Line Siting Committee's Order regarding an expansion.

in Generating Station, located about 15 miles southwest of Kingman in Mohave County. The project would include four new 50-megawatt (MW) natural gas-fired turbines equipped with state-of-the-art emission controls as well as a 230-kilovolt (kV) transmission line extending approx n Kingman, Lake.

Black Mountain generating station is an operating power station of at least 122-megawatts (MW) in Golden Valley, Mohave, Arizona, United States with multiple units, some of which are not currently operating. Loading map. Unit-level coordinates (WGS 84): CHP is an abbreviation for Combined Heat.
