

Cape Town Solar Ecosystem

Overview

Cape Town's new Atlantis 7 MW Sun Farm is a shining example of city-owned power! Thousands of solar panels are now soaking up the sun, generating clean energy and cutting electricity costs. This amazing project is creating local jobs, using locally made parts, and even helping.

Cape Town's new Atlantis 7 MW Sun Farm is a shining example of city-owned power! Thousands of solar panels are now soaking up the sun, generating clean energy and cutting electricity costs. This amazing project is creating local jobs, using locally made parts, and even helping protect nature. It's.

Published by Angelica Rhoda on December 30, 2025 Cape Town solar power plant progress moved into the spotlight this week after Mayor Geordin Hill-Lewis posted a progress update noting that ' with 12 800+ panels rising in Atlantis, we're powering local jobs and reducing reliance on Eskom,' reports.

A report by GreenCape shows that between 2014 and 2024 the City's small-scale embedded solar Photovoltaic (PV) programme helped to unlock approximately 713 to 1 140 full time equivalent (FTE) jobs and R1,7 bn to R2,6 bn of investment was facilitated within Cape Town. The power generated since 2024.

Cape Town's Mediterranean climate makes it an ideal location for solar systems. With more than 2,500 hours of sunshine annually, your panels have more than enough sunlight to generate consistent, efficient power throughout the year. Even during winter, when rain and clouds make a short appearance.

Key Figures & Findings: The City of Cape Town is accelerating the buildup of its first city-owned solar PV plant in Atlantis, part of a R200-million (approximately USD 11 million) renewable energy initiative aimed at reducing reliance on Eskom and curbing carbon emissions. According to Cape Town.

Cape Town Mayor Geordin Hill-Lewis visited the solar plant in Atlantis. The City of

Cape Town said it's making progress with its R200 million solar photovoltaic (PV) plant in Atlantis. This is after installing around 2,400 solar panels of the total planned 12,850 to power the local grid by the end.

Cape Town Solar Ecosystem

Cape Town's Atlantis solar plant: A groundbreaking step towards

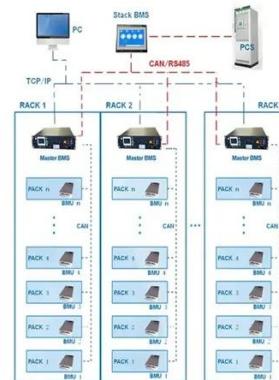

The City of Cape Town is making strides with its R200 million solar plant in Atlantis, aiming to power the local grid with 12,850 solar panels by year-end.

Atlantis Rising: Cape Town's 7 MW Sun Farm Rewrites the Rules ...

Cape Town's new Atlantis 7 MW Sun Farm is a shining example of city-owned power! Thousands of solar panels are now soaking up the sun, generating clean energy and ...
