WASHINGTON, Sept. 14, 2023 /PRNewswire/ -- After a scorching summer that taxed power grids nationwide, Holcim US today announced the installation of new solar arrays at its Fort Totten ready mix concrete plant in Washington, D.C., helping to both offset the industrial load in a major metropolitan.

Earlier this month, Holcim - a Fortune 500 company and global leader in cement and aggregate production - inaugurated a solar project at its Fort Totten ready mix concrete plant in northeast Washington, DC. The project was developed by Centennial, a solar company founded in 2014 with projects in 7.

After a scorching summer that taxed power grids nationwide, Holcim US announced the installation of new solar arrays at its Fort Totten ready mix concrete plant in Washington, D.C., helping to both offset the industrial load in a major metropolitan area and replace the fossil fuel-generated.
