What is the best combiner for a 1500V solar PV system?

The most compact and cost-efficiency combiner for 1500V solar PV system. Door-clutch operation UL98B/IEC60947 DC disconnect switch up to 1500V 250A. 1500V finger safe touch DC fuse holders for both positive and negative poles for over-current protection. 1500V DC surge protection type 2 to for over-voltage protection. (Type 1+2 for option).

What is a DC combiner box?

Our DC combiner boxes offer users the possibility to integrate short-circuit and overvoltage protection, as well string monitoring solutions (I,V, T and SPD and switch isolator status), for PV systems using central inverters with PV panels in trackers and fix tilt systems.

How are PV DC combiner boxes tested?

PV DC combiner boxes are tested according to IEC-61439-2 and are constructed on the basis of the test results as well as assembled for the specific application. This ensures that each of the requirements of the target application is fully met.
