We supply panels, inverters, mounting kits & more – directly from certified

factories in China. Advance a cleaner future with eco-friendly solar solutions that protect our planet. Power your world with reliable, cost-saving solar energy that never runs out. Switch to smart, clean energy systems. Who are the leading manufacturers of solar panels in China?

The leading manufacturers of solar panels in China are Chipsea Technologies (Shenzhen) Corp., Shanghai GenTech Co., Ltd., KBC Corporation, Ltd., and Trina Solar Co., Ltd.

Does China have a solar supply chain?

The dilemma stems from an uncomfortable reality: China dominates the global supply chain for solar power, producing the vast majority of the materials and parts for solar panels that the United States relies on for clean energy.

Which countries export the most solar panels from China?

In 2017, India (30.9 percent) and Japan (17.2 percent) were the largest importers of Chinese-manufactured solar panels. Less than 6 percent of these products were exported to the United States.
