Our factory has passed audit of ISO9001,ISO45001 and ISO14001, with 8 fully automatic and semi-automatic standardized production lines, complete safety and reliable test equipments, and an annual production capacity of 200 million yuan.

This 5.5KWH Off-Grid Energy Storage System built in inverter + MPPT charger + Li-ion battery charger + LiFePO4 battery with BMS plus LCD display. Max. Charging Voltage Max. Charging Current Max. Continuous Discharge Current Max. Output Power Max. Charging Voltage Max. Charging Current Max. Input.

But underneath all the hype and hope, there are a few stories about transformational changes that are important to entire nations or even entire continents. One of them involves Africa, where more than 600 million people have no access to reliable electricity. That puts them about a century behind.

Whether you're installing a solar system in your home or commercial property, we'll: Carefully assess your unique requirements. Work with you to design a solution that best suits your solar needs. Ensure peace of mind with our expert installation and consulting services. Partner with you over the.

In 2023 alone, the city experienced over 1,200 hours of power outages – that's roughly 50 full days without electricity. But here's the kicker: solar installations have surged by 87% since 2021. Why are residents and businesses suddenly turning to solar companies in Cape Town?

Let's unpack this.

Lunar Solar, a trusted name among solar installers Cape Town residents and businesses rely on, provides specialized solar system supply and installation services throughout the Western Cape. Led by husband-and-wife team Francois and Charina Joubert, the company brings a unique, family-oriented.
