

China high tension switchgear in Egypt

Overview

Egypt is seeking to localise the manufacturing of high- and extra-high-voltage transformers through expanded cooperation with Chinese companies, following discussions held during an official visit to China by Mahmoud Essmat, Minister of Electricity and Renewable Energy.

Egypt is seeking to localise the manufacturing of high- and extra-high-voltage transformers through expanded cooperation with Chinese companies, following discussions held during an official visit to China by Mahmoud Essmat, Minister of Electricity and Renewable Energy.

Egypt's Minister of Electricity and Renewable Energy Mahmoud Esmat met with Xiao Ling Chen, CEO of Chinese Jiangsu Ankura Intelligent Power Co., to discuss cooperation in localizing the manufacture of high- and ultra-high-voltage cable terminations and transferring technology for gas-insulated.

CHINT High-Voltage Switchgear Manufacturing workshop established in 2003. Chint can provide GIS products from 66kV to 550kV, with an annual production capacity of 2000 bays for products with 145kV and below, and 1000 bays for products with 220kV and above. This workshop is a constant temperature.

POWERCHINA signs EPC contracts with Egyptian Electricity Transmission Co for a 500kV overhead transmission line project. On June 25, POWERCHINA signed the engineering, procurement, and construction (EPC) contracts for Lot 2 and 3 of the East Ismailia to Zagazig 500 kV Transmission Line Project with.

To achieve our targets by increasing the local portion in high-voltage substations. EGEMAC signed a joint venture agreement with XD Company (one of the leading manufactures of electric products in china) to establish an industrial park in Ain Sokhna (SUEZ) for the production of power transformers.

Egyptian Minister of Electricity and Renewable Energy Mahmoud Esmat discussed, at the end of his visit to China, prospects for co-operation and partnership, as well as the latest developments related to establishing a production line to localise the manufacture of high- and extra-high-voltage cable.

66KV up to 550 KV Gas Insulated metal enclosed Switchgear (GIS). 66 KV up to 550

KV Power Transformer. Dry Type Transformer. XD-EGEMAC had successfully energized it`s first substation & operated through the Egyptian power grid since 2014, dozens of Substation & Power Transformers on turnkey basis.

China high tension switchgear in Egypt

[720 million Angstroms!China Xidian signed a national](#)

The two substation projects are national strategic projects in Egypt . The construction and implementation of the substations will provide power support and guarantee for the ...

About - XD,,EGEMAC

XD-EGEMAC is a Joint Venture Company established on 2009 by two shareholders China XD and EGEMAC Egypt, located ...

[Egypt High Voltage Switchgear Market and Analysis Report](#)

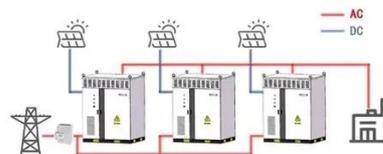

Egypt high voltage switchgear market is projected to rise at a high CAGR during the forecast period due to growing energy consumption.

About - XD,,EGEMAC

XD-EGEMAC is a Joint Venture Company established on 2009 by two shareholders China XD and EGEMAC Egypt, located in el Ain el Sokhna, Egypt, provides its H.V. Products to the ...
