

Container outdoor directional base station

Overview

What are omnidirectional base station antennas?

Omnidirectional base station antennas are collinear designs enclosed in a high density fiberglass, which is covered with a protective ultraviolet inhibiting coating. The radiating elements are made from high efficiency copper and are carefully phased to provide maximum gain in the horizontal plane.

How can a base station antenna be mounted?

Our base station antenna can be mounted horizontally or vertically. It is a top-performing omni-directional antenna, easily tunable with 2000 Watts PEP.

What are the different types of base station antennas?

Base Station Antennas: Base stations are a great way to stay connected, especially during an emergency. Here, you will find a variety of base station antenna options to choose from: Indoor and/or Outdoor Base Station Antennas, Omnidirectional Base Station Antennas, VHF Base Station Antennas, Yagi Antennas, Discone Antennas, and More!.
