

Corrosion-resistant folding containers for Victoria mines

Overview

FRP tanks & vessels have excellent corrosion resistance and can be used to store hydrochloric acid, sulfuric acid, sodium hydroxide, methanol, vegetable oil and other corrosive media. In addition, they feature high strength, lightweight and long service life.

FRP tanks & vessels have excellent corrosion resistance and can be used to store hydrochloric acid, sulfuric acid, sodium hydroxide, methanol, vegetable oil and other corrosive media. In addition, they feature high strength, lightweight and long service life.

Whether you need corrosion-resistant chemical tanks, wear-resistant liners, or custom piping systems, our fabricated plastic solutions are built to last. Our focus on tailored engineering plastics means that every component is custom-fabricated to fit the exact specifications of your operation.

BARR Plastics offers a wide range of durable plastic tanks designed to meet the demanding needs of the mining and metals industry. Our high-quality storage solutions support large-scale mining operations, metal processing facilities, exploration projects, and environmental management efforts.

Steel pallet base construction is steel with PE corner protector for strength. Inner storage tank made from HDPE natural plastic with UV-blocking additive. Discharge butterfly valve with durable, Viton synthetic fluorocarbon rubber gasket included. Top fill cap has a 6" diameter with 2" drain.

Containers for the mining industry must be tough, versatile, and built for performance in remote and extreme environments. At Advanced Container Co., we supply rugged shipping containers tailored for mining operations—from equipment and tool storage to mobile offices and break areas. We stock a.

Our containers and drums are designed and purpose built for use with ADR/RID hazardous substances I, II, and III (X/Y/Z). We are also able to provide certifications in line with IMDG, ICAO, and DOT compliance. Our pressure-resistant stainless steel containers are designed for UN hazardous material.

Shipping containers offer a robust, weatherproof, and adaptable solution for mine

site storage. Their durable construction makes them ideal for various applications, and they can be easily transported and modified to meet specific storage requirements. What security measures are essential for mine.

Corrosion-resistant folding containers for Victoria mines

Global Industrial IBC Container 275 Gallon UN Approved, Corrosion

Each tank is UN/DOT approved meeting specification 31HA1/Y. Container is designed for storage of both hazardous and non-hazardous contents. Steel pallet base construction is steel with PE ...

[FRP Tanks & Vessels for Multiple Corrosive Media ...](#)
