

Cyprus Communications 5G Base Station Subsidy

Overview

Should Cyprus invest in FTTH & 5G infrastructure?

The Government of Cyprus encourages the market to invest in Fibre to the Home (FTTH) and 5G infrastructure by providing the incentives related to regulatory certainty and measures. Public investments can only be used in areas where the market fails to develop and should be carefully targeted, so that they are not a deterrent to private investments.

Does Cyprus have 4G & 5G?

In general, Cyprus has reliable 4G and 5G service across the island. According to the Speedtest Global Index, the average mobile download speed in June 2025 was 108.97 Mbps. Connection issues mainly occur in very rural areas or at peak hours with smaller providers.

What are the major mobile networks in Cyprus?

The major Cyprus mobile networks are Cyta-Vodafone (Cytamobile), Epic (formerly MTN), PrimeTel, and Cablenet. Cyta and Epic lead in 5G coverage and speed, PrimeTel focuses on lower pricing, and Cablenet, which started as an MVNO, leases the infrastructure of other operators and sells budget plans.

What is Cyprus' digital connectivity plan?

Cyprus' digital connectivity plan sets strategic objectives for 2021-2025 and includes legislative and regulatory interventions as well as practical support for the development of digital connectivity infrastructure.
