

Expandable Folding Container for Emergency Command

Overview

The Mobile Expandable Container System (MECS) is a versatile, rapidly deployable rigid-walled shelter system designed to meet the critical needs of both emergency services and military personnel in demanding environments.

The Mobile Expandable Container System (MECS) is a versatile, rapidly deployable rigid-walled shelter system designed to meet the critical needs of both emergency services and military personnel in demanding environments.

FORTS fold-out shelters have broken new ground in the rapid deployment of portable buildings and modular command centers. They expand from a shipping footprint of 1/6th their assembled volume. That means they can be transported easily by land, by sea or by air - and take up far less storage space.

The Mobile Expandable Container System (MECS) is a versatile, rapidly deployable rigid-walled shelter system designed to meet the critical needs of both emergency services and military personnel in demanding environments. This expandable container solution offers a flexible, customizable space that.

Ozturk's "3in1" or "2in1" expandable containers include high-end technology for all kinds of command or medical work purposes. Ozturk container manufactures customized expandable containers according to any needs. Our expandable containers are built to the globally recognized ISO shipping container.

Featuring innovative technology that can expand and compress these structures, FORTS temporary structures are easy for transportation and storage, and ideal for any application. Whatever the urgency and no matter how rapid a response is required, this portable system with numerous configurations.

The Tactical Redeployable Expanding Container Capability (TRECC)-an extended-height portable shelter that expands in width for ultimate flexibility-is designed for efficient transportation, rapid deployment, and easy set up. The TRECC is manufactured in a range of sizes to suit the exact.

Expands to triple its size. Allows deployment while on a truck or trailer. Doors on both ends, nine high stacking, 20-minute set up time using two people. If your storage or transportation needs are more unique, SEA BOX can create custom

sized containers to accommodate any need.
