Perfect Power Systems designs and manufactures Central Emergency Lighting Inverters from start to finish at our new headquarters and manufacturing facility in Los Angeles, California, Certified to ISO9001 since 1996. "I would like to share my outstanding experience with the customer service.

The Tripp Lite® PowerVerter ultracompact power inverter features a compact, lightweight design for easy portability. This inverter comes with DC terminals for simple operation. Requires 12 V DC battery power to convert to 120 V AC power that allow you to run appliances. Features a low battery alarm.

The Isolite E3MAC1P is a 1,000 - 12,500 VA single phase modular AC inverter. It has a programable and password-protected user interface allowing for optional web monitoring. It is 98% effective for minimal BTU losses and has a PWM Inverter that provides pure sine wave output with less than 3% THD.

Crucial Power Products was founded in January 1997. The charter for our company is the design, engineering and manufacturing of Central Lighting Inverters. All of our Inverters comply with the UL 924 Life Safety Code. This code requires all public facilities to provide 90 minutes of egress pathway.

Isolite inverters charge battery banks from utility power, discharge batteries to generate power in an emergency, and then transfer back to the utility power when available. Inverters also monitor the state of the utility power, automated code compliance and are more cost-effective than other.

The 1000 VA rack-mounted DC-AC inverter delivers powerful and reliable energy conversion with up to 1000 VA of output. Perfect for data centers, telecommunications, and a range of industrial environments, this inverter is designed to operate continuously in demanding applications, even during power.
