Compact circuit breakers for plug-in, bolt-on, and DIN-rail mount configurations. 120 - 160V 10 - 150A Widely used in residential, commercial, and industrial applications.

How much does a circuit breaker cost?

The main breaker controls the power to all the circuits in the service panel and any connected subpanels. Most residential main breakers are 100 to 200+ amps. Older homes may have a 60-amp main breaker. Replacing a fuse box with a circuit breaker panel costs \$1,100 to \$4,000, depending on the new panel's amps and the wiring required.

How much does it cost to replace a circuit breaker panel?

The cost to replace a circuit breaker panel is \$850 to \$4,000, including labor and materials. Many older circuit breaker boxes supply 60 amps and need replacing to increase their amperage to meet the power demands of newer appliances and devices. Most modern homes have a 200-amp service panel.

Is it worth replacing a circuit breaker?

If your breaker trips frequently, feels hot, or you notice a burning smell, turn off the power and call an electrician right away. These are signs that the cost of replacing a circuit breaker might be worth it to avoid bigger issues like fires or electrical damage.
