Enjoy full operational capacity even in remote locations and emergency situations, with built-in solar power, potable water, and sewerage facilities for uninterrupted site operations. Site Hub also allows you to partition the space into dedicated offices, storage, or break areas. Whatever you need. What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

Why should you choose shipping container solar panels?

Versatility and Mobility: Shipping container solar panels offer flexibility and mobility. You can easily move and transport the container with the solar panel system intact, making it suitable for temporary or mobile applications. **Durability and Low Maintenance:** Solar panels are designed to be durable and require minimal maintenance.

Who makes shipping container solar panels?

Fleet Containers ensures the highest quality in our shipping container solar panel installations. We work with trusted suppliers and manufacturers who adhere to industry standards and provide reliable and efficient solar panels.

Are solar containers safe?

Yes — all solar containers are built from weatherproof, lockable shipping containers. Your gear is safe from the elements and secure from unauthorised access. Can the system be expanded later on?
