Illuminate your space with adjustable solar lamps designed for indoor and outdoor use.

Can a solar lantern light a house?

But my solar gear (including an inflatable lantern, string lights, flameless candles, path lights, and a power bank that doubles as a lantern) can still scrape together enough sunlight each day to stay lit in the evenings. I've tested a multitude of options, and these are my favorite ways to harness the sun's rays to light your home.

Can solar power save you money?

But if you want to reduce your utility costs and your reliance on the grid, swapping out ordinary lights and other appliances for their solar-powered counterparts is one of the simplest steps you can take. It saves money, minimizes cord clutter, and takes advantage of a clean and abundant source of renewable energy.
