Quickly and easily find the right products and accessories for your applications. Start. Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 1-2 and Figure 1-3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.

Can a battery cabinet be used with a ups?

The battery cabinet frame is not referenced to the DC circuit. Each battery cabinet has its own overcurrent protection device. External battery cabinets can be used in combination with a UPS containing internal batteries. Internal battery strings are to be connected by an authorized Eaton Customer Service Engineer.

What is the Eaton 93e external battery cabinet?

The Eaton® External Battery Cabinet (EBC) provides extended emergency short-term backup power for the 93E 20–30 kVA and 40–60 kVA UPS to enhance the usability and reliability of the systems. The EBC safeguards operation during brownouts, blackouts, and other power interruptions providing cost-effective extended battery run time.

What should I do if a cabinet is installed permanently?

If installing the cabinet permanently, retain the shipping brackets and hardware; otherwise, recycle the pallet, and shipping brackets in a responsible manner. Use leveling feet only to lock the cabinet in place. Using the leveling feet to raise the cabinet may result in serious injury to personnel or damage to the cabinet. 14.
