Overview

What is Huawei Polska's new energy storage system?

In response to the needs of this segment, Huawei Polska also has several new solutions, including the SUN2000-150K-MG0 inverter and the LUNA2000-215-2S10 energy storage system, one of the most advanced solutions on the market. It features hybrid cooling, i.e. using liquid and air cooling.

What does Huawei Polska do?

In the clean power generation sector, Huawei Polska helps create new power systems that primarily rely on renewable energy. The company improves energy production, management, and utilization in the digital power domain. The ICT segment is based on ecological, low-emission, intelligent data centres and communication networks.

Where is Huawei located in Poland?

Huawei has been present in Poland for 21 years, with its headquarters in Warsaw, the home for research and development centre and the service and support department for installers and end customers. Huawei Polska presents the latest Huawei Fusionsolar products at expo stand no. 6-D03 in expo hall 6 of Targi Kielce at the Enex Expo.

What are Huawei's new products for residential buildings?

At booth no. 6-D03 during Enex, Huawei Poland will showcase its latest products for residential buildings: the SUN2000-5/6/8/10/12K-MAP0 inverter, SmartGuard - 63A - T0 emergency power distribution board, intelligent optimizer - HUAWEI SUN2000-600W-P, LUNA2000 S1 energy storage system, and EMMA-A02 (energy management assistant).
