

# Industrial solar container battery merchants in Auckland New Zealand

## Overview

---

How many types of solar batteries are there in NZ?

We have two types of solar batteries in NZ, but we will help you choose the right one for your application. DC Coupled Battery System: You can only connect solar panels to this battery storage type, meaning it can only store energy generated by your solar panels.

Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

What is containerised battery storage?

A long-term solution: our containerised battery storage solutions are built to last for decades. Your system's precious lithium-ion core is housed in an incredibly tough shipping-grade container. Battery storage from solar panels, wind turbines or water sources can give you the independence you need.

Where can I rely on a containerised energy storage solution?

Today, we are also a name you can rely on for safe battery storage. Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over New Zealand and further afield (we have a footprint in 90+ countries).
