

Iraq 2025 hybrid energy 5g base station construction bidding

Overview

How many MW of electricity will Iraq produce in 2025?

Iraq signs agreement with Siemens to produce 14,000 MW of electricity, Baghdad, Iraq, May 1, 2025. Photo: Iraqi PM's office.

Does Iraq have long-term maintenance projects?

It also includes long-term maintenance projects at two key plants, according to statements released by Iraq's Ministry of Electricity and the office of Prime Minister Mohammed Shia al-Sudani.

What does Baghdad's new energy agreement mean for the energy sector?

Years of conflict, underinvestment, and mismanagement have left much of its power grid outdated and vulnerable. The new agreement is part of a broader strategy by Baghdad to stabilize the energy sector and reduce reliance on emergency imports and stopgap solutions that have failed to meet public demand.

Does Iraq have a power shortage?

Photo: Iraqi PM's office BAGHDAD,— In a bid to alleviate chronic electricity shortages, the Iraqi government has signed a new agreement with Siemens Energy of Germany, setting in motion a large-scale effort to modernize the country's power infrastructure.
