

Kingston New Energy solar container lithium battery Factory

Overview

The plan: to build 300 industrial lithium-ion batteries in 14-foot-tall containers covering nearly 12 acres of a 15-acre property at the former John A. Coleman Catholic High School in the Town of Ulster, near the borders of Kingston and Hurley.

The plan: to build 300 industrial lithium-ion batteries in 14-foot-tall containers covering nearly 12 acres of a 15-acre property at the former John A. Coleman Catholic High School in the Town of Ulster, near the borders of Kingston and Hurley.

A plan to build what could become New York state's largest battery energy storage facility just outside Kingston has ignited a firestorm of opposition from residents, firefighters and elected officials, who warn that placing the 250-megawatt site in a densely populated neighborhood is a disaster.

Terra-Gen, a national energy company that stores clean, reliable energy from wind and solar and stores it in battery energy storage systems (BESS), has proposed the construction and operation of a 250-megawatt lithium-ion BESS facility at the former John A. Coleman Catholic High School in the Town.

The NYS Potential Environmental Justice Area that includes residential neighborhoods adjacent to the former John A. Coleman Catholic High School, located at 438 Hurley Ave. in the Town of Ulster (sandwiched between the City of Kingston and Town of Hurley). By Rebecca Martin When GlidePath first.

A new lithium-ion battery plant could replace a former high school near Kingston, New York. The site, which was once home to John A Coleman Catholic High School in Hurley, NY, has been selected as a possible location for a massive lithium-ion battery plant that would include adding massive water.

KINGSTON–The City of Kingston Board of Education called an unusual mid-day meeting to discuss its role as an “interested agency” in a proposed lithium-ion battery facility in the Town of Ulster. Board members met in executive session prior to the meeting to gain legal advice about the proposed.

A new lithium-ion battery plant could replace a former high school near Kingston,

New York. The site, which was once home to John A Coleman Catholic High School in Hurley, NY, has been selected as a possible location for a massive lithium-ion battery plant that would include adding massive water.
