What is a LV 2424 solar inverter?

Each LV 2424 is a 2.4kw/24vdc solar hybrid inverter with 120vac output that can configure into 240v SPLIT PHASE by stacking 2 or more units in parallel. Max support for parallel operation is up to 9 units (*a parallel kit is required for each unit, sold separately.).

What is a v2l inverter?

The beauty of this new system is that it is simple and provides more power for much longer than using portable 12V to 240V inverters that can quickly flatten a 12V battery. V2L is ideal for remote locations as it allows you to use standard appliances like a toaster, induction hotplate or microwave.
