

Ljubljana Air Energy Storage Power Station

Overview

Where is Ljubljana Power Station located?

The Ljubljana Power Station is a coal -fired heat and power station in the Moste District of Ljubljana, the capital of Slovenia. The plant is owned and operated by Energetika Ljubljana. The plant delivers 90% of the remote generated heat in Ljubljana. [citation needed] About 74% of Ljubljana households use district heating.

When did electricity start in Ljubljana?

Electricity production in Ljubljana began as early as 1898 in the so-called Old Power Plant on Slomškova Street.

What happened to Ljubljana's old power plant?

The old power plant in Ljubljana was converted into a boiler house in 1961, replacing some of the individual heating facilities in the city centre. Since 1966 it has been replaced by the new Thermal Power Plant (TE-TOL) at the Moste site.

Could energetika Ljubljana be a waste-to-energy facility?

Energetika Ljubljana also has a large thermal consumption capacity, which potentially allows for construction of a waste-to-energy facility in central Slovenia in compliance with today's energy efficiency norms and the most demanding ecological standards.
