

# Magadan Smart Photovoltaic Energy Storage Container 200kW

## Overview

---

What configurations make up a 200kva 200kW solar power plant?

The following configurations make up a complete 200kva 200kW solar power plant: Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey PV energy storage system solution. After we complete production, the system delivered to you can be used immediately after connections are made.

How can pvmars provide a complete 200kW solar power plant solution?

The premise of providing a complete 200kw solar power plant solution requires: You only need to submit load (electrical equipment) information, pictures/drawings of the installation location, output voltage range, and other data. PVMARS's engineering team can provide a complete solar system (off-grid or mini-grid solution).

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is the battery capacity of a 200kW solar plant?

The gel battery of this 200kw solar plant is designed with 180pcs 2v1500ah batteries with a total capacity of 540kWh. 2.33V/Cell (-4mV/'C/Cell) Max. Charge Current:225A
