New Energy Vehicles are transforming into “ Mobile Charging Stations,” marking the beginning of a new era in energy storage and supply.

New Energy Vehicles are transforming into “ Mobile Charging Stations,” marking the beginning of a new era in energy storage and supply.

Governor Kathy Hochul today announced \$3 million has been awarded to three projects to advance technologies that can help integrate electric vehicles efficiently into the electric grid. The Governor has also made available \$4 million to advance technologies that overcome data collection.

New Energy Vehicles are transforming into “ Mobile Charging Stations,” marking the beginning of a new era in energy storage and supply. On April 25, 2025, the Shenzhen Electric Vehicle Network launched a pilot program for the application of a new charging model aimed at enhancing the electric.
