We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.
Who is Stealth Power?

Stealth Power provides fleet electrification and off grid solar solutions for customers of all kinds.

Which battery bank should I choose for the Instant off-grid containers?

Choose between a GEL Deep Cycle Sealed Lead Acid battery bank or a next-gen Lithium Iron bank. See below for more details and pictures. Pre-configured by RPS engineers. 370W solar panels power the Instant Off-Grid Containers. Each panel measures 69.1" x 40.9" x 1.4".

How do I design an off-grid Solar System?

Designing an off-grid solar system can be complex. There are three factors to consider when sizing for off-grid solar: The most common off-grid system configurations range from 5kW to 21kW. However, energy usage varies for every household, so the best approach is to design a custom off-grid solar kit based on your specific energy usage patterns.
