Our trailers are designed by a team of experts in HVAC, electrical, solar, and construction, delivering high-performance, mobile energy solutions for homes, businesses, and outdoor adventures. With advanced solar technology and battery storage, SPOG Trailers provide reliable power wherever you need.

This cutting-edge, Eco-friendly Generator boasts a 3.7kW solar array, up to 30kW power output, and expandable battery storage up to 60kWh, perfect for slashing utility bills and conquering grid failures. Whether you're powering a home, charging an EV, or lighting up a festival, this trailer.

Battery energy storage systems (BESS) and solar are an increasingly common hybrid power set-up for portable off-grid applications. Pairing solar power with POWRBANK battery energy storage systems maximizes energy efficiency by storing surplus energy produced during sunny days. This stored energy.

The U.S. designed and manufactured NUE SunWing™ provides the functionality of an enclosed cargo trailer with the added benefit of integrated solar “wings” that provide both power generation as well as protection from the sun (they function as awnings). The enclosed trailer allows greater inverter.

Delivering 10,000W of rated power output, this rugged pure sine wave hybrid inverter is capable of pairing with either GEL or LI batteries. Dual MPPTs provide 99% efficiency. Provides 120V and 220V output power. Also compatible with 120V/220V AC grid charging or autostart generator. Pre-Installed.

This solar trailer is a game changer for our food truck. It has 6,400 W of bifacial

panels and can store up to 80 kWh of batteries, so we always have electricity. The panels come mounted and wired on welded brackets, and pairing it with our Rebel generator gives us up to 18 kW of output with a 54.
