This miniature circuit breaker offers a space-saving design perfect for tight installations, ensuring efficient use of space in solar PV systems and RVs. Designed specifically for DC power applications, it provides reliable overcurrent protection, safeguarding your solar power systems and.

EFFORTLESS INSTALLATION - Quickly mount on standard DIN rails for both home and industrial setups. The A1 ELECTRICS Type-A RCD Double Pole Din Rail Mounted Circuit Breaker is designed for optimal safety and compliance in modern electrical installations. With an 80A power rating and 100mA time delay.

Circuit breaker pole mounted are essential components within the realm of electrical equipment, specifically designed to handle low voltage applications. These devices play a critical role in safeguarding electrical circuits by preventing damage caused by overloads or short circuits. The primary.

This 3 pole circuit breaker provides reliable thermal and magnetic protection, ensuring circuits remain safe from overloads and short circuits, enhancing operational reliability for various electrical installations. The miniature size of this breaker facilitates easy installation on DIN rails.

The A1 ELECTRICS Single Pole Type B MCB offers a robust 6kA breaking capacity with a clear red/green ON/OFF indicator, designed for DIN rail mounting. Available in multiple amperages (6A to 63A), this compact 32A model ensures reliable circuit protection and seamless compatibility with A1electrics.

High breaking capacity and quick trip feature make it ideal for circuit overload and short circuit protection. Excluding Shipping & Custom charges (Shipping and custom charges will be calculated on checkout) Ubuy works hard to protect your
