How big your solar setup is really matters.

As of March 2024, the average solar panel installation cost in Nassau County, NY is \$3.24/W. This is higher than the national average of \$3.00/W for residential solar systems. But what exactly affects these costs?

How big your solar setup is really matters.

Currently, the national average cost of solar panels is \$2.66 per watt. However, in Nassau, the average cost of solar panels is 4 per watt. To cover the typical energy usage of the average home in Nassau, most homeowners require a 4.6-kilowatt system. Using the figure above, a solar installation.

Long Island's solar market shows both national trends and local factors. Higher labor costs, specific rules, and demand shape prices here. Knowing these factors helps you compare quotes better. Nationally, solar installations cost \$2.50 to \$4.00 per watt before incentives. But Long Island prices.

You'll pay an average of \$34,035 to install a 12.19 kilowatt (kW) solar panel system in New York before any available incentives. Solar panels typically last 25-30 years, generating free electricity and protecting you from rising utility rates for decades. The average New York homeowner will save.
