To sharpen material handling efficiency, ORBIS' folding containers offer more capacity, less wasted space, reduced shipping and storage costs. They quickly

assemble or collapse in only 3.8 seconds. Containers are an economic, environmental and efficient alternative to corrugated boxes or cases when. What is a hand-held folding container system?

Take the air out of shipping and storage costs with the Hand-Held Folding Container System. To sharpen material handling efficiency, ORBIS' folding containers offer more capacity, less wasted space, reduced shipping and storage costs. They quickly assemble or collapse in only 3.8 seconds.

Are Orbis foldable large containers sustainable?

ORBIS foldable large containers offer sustainability – across the entire life cycle. That starts with the production of our FLCs: We use recycled materials during the manufacturing process which leads to a reduction of CO2 emissions. Due to their longevity and durability, our large collapsible containers are suitable for green logistics.

What is a returnable foldable large container (FLC)?

For improved space and capacity utilisation ORBIS has introduced a returnable foldable large container (FLC). The OceanPak plastic bin is stackable and collapsible when empty. That increases efficiency and minimizes transport costs during intercontinental shipping, especially during the return transport.

Is a returnable foldable large container sustainable?

One-way packaging is still widely used, and the return shipment of empty containers is costly. Using disposable packaging, however, is neither sustainable, nor very efficient. For improved space and capacity utilisation ORBIS has introduced a returnable foldable large container (FLC).
