How do you want your items?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop.

A variety of platforms offer retractable solar panels, including online retail marketplaces, specialty renewable energy stores, and manufacturers' websites. Among these, e-commerce platforms frequently present the largest selection, while local home improvement centers typically stock various.

These solar panels are high efficiency 12-Volt solar panels featuring sturdy aluminum frames and high transparency tempered glass tops. They have a scratch resistant and anti-reflective coating to help keep the solar panel in good shape for many years they are rugged enough to be permanently.

How much does the Smartflower cost compared to regular solar panels?

Cost per watt is the best way to compare pricing between different solar systems. The Smartflower costs between \$25,000 to \$30,000, with the average cost being approximately \$27,000. This is around \$10 per watt, or \$10,000 per.
