Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels. The aluminum.

Founding members of the K Square have experienced building professionals in glass and glazing segments for over 20 years. It started with the supply and installation of large glass assemblies. Due to the growing demand, over the last few years, it became a system supplier of doors, windows as well.
