

Solar energy on-site wind power is not allowed

Overview

The Interior Department released a new secretarial order Friday saying it may no longer issue any permits to a solar or wind project on federal lands unless the agency believes it will generate as much energy per acre as a coal, gas, or nuclear power plant.

The Interior Department released a new secretarial order Friday saying it may no longer issue any permits to a solar or wind project on federal lands unless the agency believes it will generate as much energy per acre as a coal, gas, or nuclear power plant.

President Donald Trump said the U.S. will not approve wind or solar power projects. Trump has tightened federal permitting for renewables with Interior Secretary Doug Burgum now having the final say. Renewable companies fear that projects will no longer receive permits that were once normal course.

WASHINGTON — Today, U.S. Secretary of the Interior Doug Burgum signed a Secretary's Order to more efficiently manage our nation's energy resources by permitting projects that optimize energy generation while minimizing their environmental impact. Massive, unreliable energy projects, such as wind.

Like wind power, photovoltaic (PV) solar power has also been impacted by an increasing number of state and local ordinances that restrict where solar power may be deployed. This analysis, similar to the prior one in the series on wind power, utilizes the National Renewable Energy Laboratory's.

Solar and wind projects on public land in the United States will now undergo "elevated review" by US Department of Interior head Doug Burgum. Image: US Department of the Interior, Wikimedia Commons From pv magazine USA US solar and wind energy developers now face another government clampdown on.

Wind Watch is managed by unpaid volunteers and keeps expenses low, but relies entirely on reader support to keep the web site running. Please note that opinion pieces (including letters, editorials, and blogs), reflect the viewpoints of their authors; National Wind Watch does not necessarily agree.
