

Solar power station in China in Gambia

Overview

The Jambur Solar Power Station (JSPS), is an operational 23 MW (31,000 hp) in . The power station began commercial operations in March 2024. It is owned and was developed by the government of Gambia, with funding from the European Union, the European Investment Bank and the World Bank. The power generated here is integrated into the Gambian national electricity grid, through the National Water and Electricity Company network.

JA Solar, a Chinese maker of high-efficiency PV modules, is helping supply state-of-the-art solar panels for Gambia's first utility-scale solar project of 23 MW Jambur Solar Plant.

JA Solar, a Chinese maker of high-efficiency PV modules, is helping supply state-of-the-art solar panels for Gambia's first utility-scale solar project of 23 MW Jambur Solar Plant.

The 23 MW Jambur solar plant in Gambia, equipped with JA Solar modules, has increased renewable energy capacity by 20% and met 10% of demand. [Link copied! Copy failed!](#) The Jambur solar plant has increased Gambia's renewable generation capacity and improved electricity access for thousands of.

The Gambia entered a new era of energy development in April 2023 with the inauguration of its first large-scale solar energy facility in Jambur. Built by Chinese manufacturer Tebian Electric Apparatus, the 23 MW solar plant - equipped with an 8 MW electricity storage system - serves to reduce the.

The Gambia has inaugurated a 23 MW solar plant with 8 MWh of battery storage as part of the Gambia Electricity Restoration and Modernization Project (GERMP), which targets universal electricity access by 2025. The Gambia has commissioned

a 23 MW solar plant in Jambur, near the country's west coast.

storage is being commissioned. This solar plant allows NAWEC to finally shift away from expensive heavy fuel oil-based generation which is costly and has slight seasonal variations. The average daily solar radiation ranges from 4.4 to 6.7 kWh/m²-- making solar energy the most prominent renewable energy source.
