

# The largest energy storage project in Finland

ESS

## Overview

---

Sweden-headquartered BESS developer-operator Ingrid Capacity will build a 70MW/140MWh project in Finland, which it claimed will be the largest in the country.

Sweden-headquartered BESS developer-operator Ingrid Capacity will build a 70MW/140MWh project in Finland, which it claimed will be the largest in the country.

Sweden-headquartered BESS developer-operator Ingrid Capacity will build a 70MW/140MWh project in Finland, which it claimed will be the largest in the country. Ingrid is developing the battery energy storage system (BESS) project in partnership with investor SEB Nordic Energy portfolio company Locus.

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy storage system (BESS) in Nivala Municipality, Northern Ostrobothnia. After the start of commercial operations in 2026, the.

Finland's authorization of its largest battery-storage project marks a pivotal point in the renewable energy landscape. As energy stakeholders anticipate the completion of the Nivala-based infrastructure, the project led by SEB Nordic Energy's Locus Energy and Ingrid Capacity AB underscores.

Hitachi Energy has secured a contract from Nordic Electro Power (NEPower) to deliver power conversion solutions for the largest battery energy storage system (BESS) in Finland, as reported by Power Technology. The system is being developed by the Swiss energy company Alpiq in Haapajarvi. The.

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for Finland's largest battery energy storage system (BESS) in Haapajarvi. Switzerland-based energy company Alpiq is building the 125 MW / 250 MWh facility to support Ingrid's.

Helen Ltd and Evli Fund Management Company Ltd's renewable energy fund, Evli Renewable Energy Infrastructure Fund II, have completed a major electricity storage project in Nurmijarvi. The lithium-ion-based storage facility is now

operational. With a power capacity of over 40 megawatts and an energy.

## The largest energy storage project in Finland
