

# Timor-Leste Energy Storage Project Planning Scheme

## Overview

---

The landmark project includes drafting and negotiating a power purchase agreement (PPA) and an implementation agreement with the Ministry of Finance, marking a significant step in Timor-Leste's transition to renewable energy and modernising its electricity infrastructure.

The landmark project includes drafting and negotiating a power purchase agreement (PPA) and an implementation agreement with the Ministry of Finance, marking a significant step in Timor-Leste's transition to renewable energy and modernising its electricity infrastructure.

Global law firm DLA Piper, as part of an advisory team led by the Asian Development Bank (ADB) has advised Eletricidade de Timor-Leste (EDTL) on a power purchase agreement with a consortium comprised of Électricité de France and Itochu for the development of Timor-Leste's first utility-scale solar.

ITOCHU Corporation (headquartered in Minato-ku, Tokyo; President & COO: Keita Ishii; hereinafter "ITOCHU") is pleased to announce that, together with EDF power solutions ("EDF ps"), a subsidiary of the EDF Group (Électricité de France), it has signed a Power Purchase Agreement ("PPA") with.

The state utility company Electricidade de Timor-Leste (EDTL), which become corporatized only in 2020 currently spends over USD 100 million/year as a fuel budget and electricity tariff set below the cost-recovery level is being subsidized using the central government budget allocation. Design.

and maturity, used for grid applications. References is not available for this document while maintaining reliability. The Future of Energy Storage report is an essential analysis of this key component in decarbonizing our energy in these concerns viably at different levels. This paper.

The Greater Sunrise project, harnessing significant natural gas and condensate

reserves, will transform Timor-Leste's economy, generating up to USD 50 billion. It aims to boost local development through job creation, infrastructure, and technological innovation, while adhering to strict. What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

Why should Timor-Leste invest in solar & storage infrastructure?

José added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country". José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

How has Timor-Leste benefited from a power purchase agreement (PPA)?

This landmark project included drafting and negotiating a power purchase agreement (PPA) and an implementation agreement with the Ministry of Finance, marking a significant step in Timor-Leste's transition to renewable energy and the modernisation of its electricity infrastructure. José de Ponte, Partner in DLA Piper's Finance practice, commented:.
