

Uzbekistan solar container communication station wind and solar hybrid closed

Overview

French renewable company Voltalia has begun construction on the Artemisya hybrid energy complex in Uzbekistan's Bukhara region, with the first phase—100MW wind and 100MW/200MWh battery storage—starting in December 2025.

French renewable company Voltalia has begun construction on the Artemisya hybrid energy complex in Uzbekistan's Bukhara region, with the first phase—100MW wind and 100MW/200MWh battery storage—starting in December 2025.

Voltalia (Euronext Paris, ISIN code: FR0011995588), an international renewable energy player, announces the start of construction of a strategic cluster in Uzbekistan: Artemisya Storage (100 megawatts / 200 megawatt-hours) and Wind (100 megawatts). This milestone marks a major turning point in the.

French company Voltalia signed a 25-year power purchase agreement in Uzbekistan for its hybrid cluster, which combines solar and wind power with energy storage. The company is also developing new projects in energy storage and agrivoltaics. French energy company Voltalia signed a power purchase.

French firm Voltalia starts construction on Uzbekistan's first integrated solar, wind, and storage project, set for completion in 2027. French renewable company Voltalia has begun construction on the Artemisya hybrid energy complex in Uzbekistan's Bukhara region, with the first phase—100MW wind and.

Voltalia announced the start of construction of a strategic cluster in Uzbekistan: Artemisya Storage (100 megawatts /200 megawatt-hours) and Wind (100 megawatts). This milestone marks a major turning point in the development of the country's energy storage infrastructure. In March 2025¹, Voltalia.

International renewable energy company Voltalia (Euronext Paris, ISIN: FR0011995588) has signed a power sales agreement (PPA) for its hybrid project in Uzbekistan. The agreement was concluded with the state-owned company JSC Uzenergosotish during the official visit of Uzbek President Shavkat.

French renewable energy company Voltalia has signed a 526MW hybrid

renewables power purchase agreement (PPA) with the Uzbek state energy purchasing company, JSC Uzenergosotish. The Artemisya solar, wind and energy storage hybrid project is located in the Bukhara region of Uzbekistan. The offtake.
