### Rational functions (video)

What are rational functions? How do we plot them? What is their domain and range? Let's find out. We break down the definition of the function given in set-builder form and plot the graph ...

About this unit A function is like a machine that takes an input and gives an output. Let's explore how we can graph, analyze, and create different types of functions. Unit guides are here! ...

## Functions , Integrated math 1

In this unit, we learn about functions, which are mathematical entities that assign unique outputs to given inputs. We'll evaluate, graph, analyze, and create various types of functions.

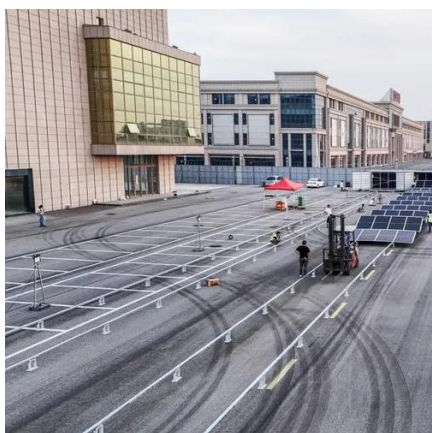

[What is a function? \(video\) , Functions , Khan Academy](#)

Functions assign a single output for each of their inputs. In this video, we see examples of various kinds of functions.

### Equations vs. functions (video)

Equations and functions are not the same thing, but they can be related in several ways. Watch Jesse Roe and Sal talk about the difference between equations and functions.
