

# What are the outdoor power supplies powered by PD

## Overview

---

### What is a USB PD Charger?

The USB PD charger detects the power requirements of connected devices to deliver the right amount of power to charge that device as fast as possible. GlobTek manufactures USB power delivery (USB PD) rapid charger power supplies in various wattage levels from 18 to 100 watts.

### What is a portable power station?

Portable power stations are large batteries in protective boxes, with AC outlets and other charging ports built in.

### What is the best portable power station?

This unit offers lots of power in a portable, durable, easy-to-use package. Plus, it has a wide array of outlets and charging ports to keep your essential devices running off-grid. The EcoFlow River 2 Pro is the best portable power station for most people. It's relatively light, ruggedly built, intuitive to use, and reliable.

### What is a USB PD module?

This module acts as a trigger or decoy to request specific power profiles from USB-PD power sources such as USB-C chargers, power banks, and adapters. So, with this module, you can trigger USB-PD protocols and thus, for example, charge your laptop via a PD-capable USB-C power supply.

## What are the outdoor power supplies powered by PD

### 300W Portable Power Station& 67W USB C Wall Charger, Battery ...
