GoKoval Solar Solutions is a Timor-based company specializing in innovative solar cell systems. We provide reliable, sustainable energy solutions tailored to meet the needs of both urban and rural communities. At GoKoval, we pride ourselves on delivering high-quality solutions through a team of.

Timor-Leste has rapidly expanded electricity access to more than 83 per cent of the population but the country has yet to achieve energy security.¹ Consumer costs, even with government subsidy, remain high and outages are common. In addition, most of Timor-Leste's electricity is generated through.

In cooperation with our local partner, GSOL technicians have installed a 300kWp on-grid solar PV system, which covers 50% of the annual electricity consumption of

the UN House, and is expected to reduce CO2 emissions by 286 tonnes annually. The PV modules are mounted on a large carpark structure. Does Timor-Leste need a roof-top solar energy system?

In addition, most of Timor-Leste's electricity is generated through costly and polluting diesel generators. Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

What is energy security in Timor-Leste?

1 Energy security is “uninterrupted availability of energy sources at an affordable price”; International Energy Agency. The average payback period for a rooftop PV solar energy system in Timor-Leste is 2.5 years. This is much lower than the global average of 6 to 10 years, due to solar resource and electricity costs:.

Is Timor-Leste a good country for solar energy?

Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia, where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

Does Timor-Leste have a rooftop PV market?

Timor-Leste's rooftop PV market is nascent; few businesses have invested in PV rooftops and household use remains low. The supply aspect has also not caught up with the global boom—few firms offer rooftop PV solar in Timor-Leste.
